

Query 1

Eigene Atomreaktoren für unsere Zukunft The situation on the Swiss energy market urgently requires the construction of new power plants, writes ThermAtomAG Zurich. The Editorial. The power plants were still of the opinion six months ago that the first power reactor would not be connected to the Swiss grid before 1972. [...]

Query 2

Switzerland in Brief: CFF. The CFF ordered twelve panoramic first-class carriages from the Swiss industry. These carriages will enter service as early as 1991. Special efforts were made to satisfy passengers with features such as panoramic windows, lockers, and baggage compartments. AVS. The Federal Council met late afternoon at the Watteville [...]

Query 3

Boulganin Liquidated Continuation of the First Page One does not think, however, that he risks being completely dismissed or even disgraced as happened to Messrs. Molotov, Malenkov, and Kaganovich. Mr. Boulganin welcomes a Japanese delegation. LONDON, 5 Reuters. The Tass agency reports that Soviet Premier Mr. Bulganin [...]

Query 4

The authorities at Chernobyl continue to use vague language. The turbine hall at the Chernobyl nuclear power plant is a chaotic mess of equipment scattered around, scaffolding, and electrical wires snaking over a floor covered with debris. The metal beams of the ceiling are blackened. There was a fire six [...]

Query 5

Two mergers of municipalities: The fifteen municipalities of ValdeRuz chose to unite yesterday, giving birth to the third city in the canton of Neuchâtel, with 15,000 inhabitants. This is the largest merger to date in Switzerland. On the Littoral, Auviernier, Bôle, and Colombier have also approved their union. With the [...]
